RECOMMENDED LENGTH OF STAY

We recommend a minimum of a 3 night stay to fully appreciate the lodge and area

MEDICAL

- We recommend that you be advised by your GP before travelling to ensure you take the necessary precautions.
- The lodge is located in a malarial area, however the risk is greatly reduced during the dry winter months, we do recommend consulting your doctor about prophylactics before visiting.
- All our staff are trained to first aid level 1 and first aid kits available in the villas and in all our vehicles.
- The closest town for a Doctor is Skukuza (24 mins driving)

ELECTRICITY

- Solar power during the day with battery back ups in the evening. We are still grid-tied as a back up to our solar.
- Various plug-points available in your villa as well as wireless charging. All sockets are 220V. (USB-A and USB-C charging ports available)

WATER

Our water is supplied by borehole which is treated and safe to drink
